RE: School Dinners

Dear Parents and Carers,

The school has trailed using a choice system for school dinners over the last four weeks. After meeting with the School Council, children and Parents I would like to notify you about some changes to this system.

The School Council identified that the current system prevented some children from changing their choice each week. Some children were not enjoying the choices they had made. We have spoken to Chartwells (who run our kitchens) and from Monday children will choose their meal each day.

The School Council requested that the older children in school would like more 'grown up meals' to choose from. We have spoken to Chartwells and, following the change in menu on April the 1st, children in Year 6 will be able to choose from a bespoke menu.

I hope your child continues to enjoy the excellent meals provided by Chartwells – please find a copy of the current menu attached to this email. Before the new menu is launches on April the 1st children will be able to sample new dishes and will work with the chefs to choose their favourites.

Yours faithfully

J Howard
